ECONOMIC DEVELOPMENTS

Zimbabwe Stock Market Developments

Activity on the stock market during the month of April 2011, was generally subdued. The mining index declined by 16.7%, from 237.18 points at the end of March 2011 to 197.48 points by end of April 2011. The industrial index, however, rose by 2.5%, from 160.65 points in March 2011 to 164.66 points by end of April 2011.

Daily values traded declined by 1.17% from US\$35.9 million in March 2011 to US\$35.5 million in April 2011. This could be attributed to economic agents remaining cautious due to the uncertainty regarding their investments.

Despite the liquidity constraints, the volumes traded, however, registered a positive growth.

Daily average volumes traded increasing by 31.1%, from 15.1 million shares in March to 19.8 million shares in April 2011.

In the remainder of 2011, the local bourse is expected to continue registering positive gains, on the back of growth forecasts in the mining sector.

Banking Sector Developments

Annual growth in deposits¹ held by banks stood at 48.5% in April, losing 4.1 percent-

1. Deposits are net of interbank deposits.

ECONOMIC DEVELOPMENTS

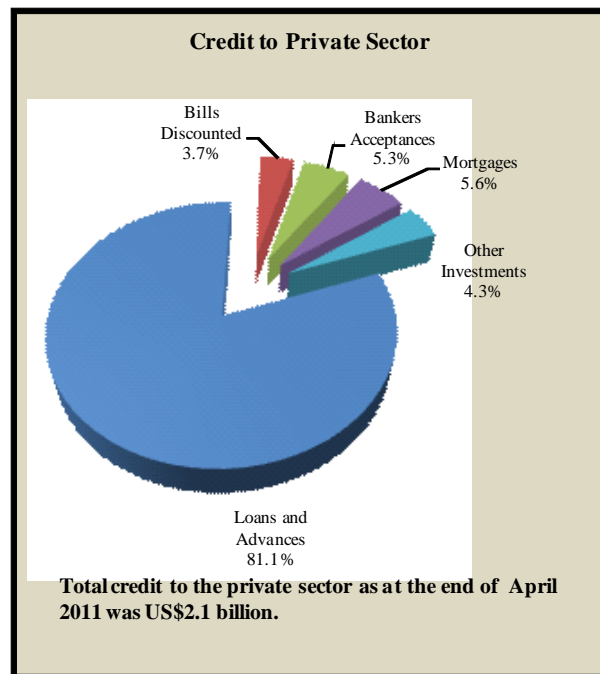

age points from 52.6% in March 2011. In absolute terms, however, the level of deposits rose, from US\$1.8 billion in April 2010 to US\$2.6 billion in April 2011.

The banking sector deposits remained volatile, with short term deposits accounting for 90.8% of total deposits.

investments contributed US\$243.3 million.

Credit to the private sector was mainly advanced to the distribution (21.3%), manufacturing (20.8%), and agriculture (19.9%) sectors. Credit was largely utilised for the procurement of raw materials (28.3%) and other cash advances to meet working capital needs accounted for 27.6% of total private sector credit.

Domestic credit registered a 116% annual growth, from US\$981.7 million in April 2010 to US\$2.1 billion in April 2011. The growth in domestic credit was underpinned by a 119.3% annual increase in credit to the private sector.

Growth in credit to private sector was largely driven by loans and advances (US\$1.9 billion), while trade bills and other

Claims on public enterprises, however, recorded an annual decline of 5.3%, to US\$26.4 million in April 2011.

The loan to deposit ratio² rose from 77.3% in March 2011 to 80.6% in April 2011, partly reflecting increased confidence by banks, in the domestic economy.

2. This is calculated by dividing total credit to private sector by total deposits (excluding interbank deposits.)

ECONOMIC DEVELOPMENTS

Inflation

Zimbabwe's inflation remains low and stable, as evidenced by the deceleration to levels below 3% by the first quarter of 2011.

In April 2011, annual headline inflation remained unchanged at 2.7%, from . Food and non-food inflation stood at 2.95% and 2.58%, respectively.

Food inflation was largely driven by fruits and vegetables, which were in short supply. These were being complemented by imports from South Africa, which are adversely affected by a strong Rand.

The increase in non-food inflation was mainly due to transport costs, which responded to increases in domestic fuel prices.

Disturbances in the Middle East and North Africa have led to increases in international oil prices.

Monthly inflation slowed down from 0.8% in March 2011 to 0.1% in April, underpinned by deceleration in both monthly food and non-food inflation.

Food inflation decelerated from 0.63% in March to 0.52% in April, while monthly non food inflation fell by 0.02% in April 2011, underpinned by price declines in health, communication and clothing and footwear categories.

The deceleration in inflation is partly explained by low aggregate demand emanating from the liquidity crunch

ECONOMIC DEVELOPMENTS

In the short to medium term, inflation developments in the economy will continue to be influenced by the strength of the rand, firm oil prices and rising food prices among other factors.

National Payments System Developments

Card Systems

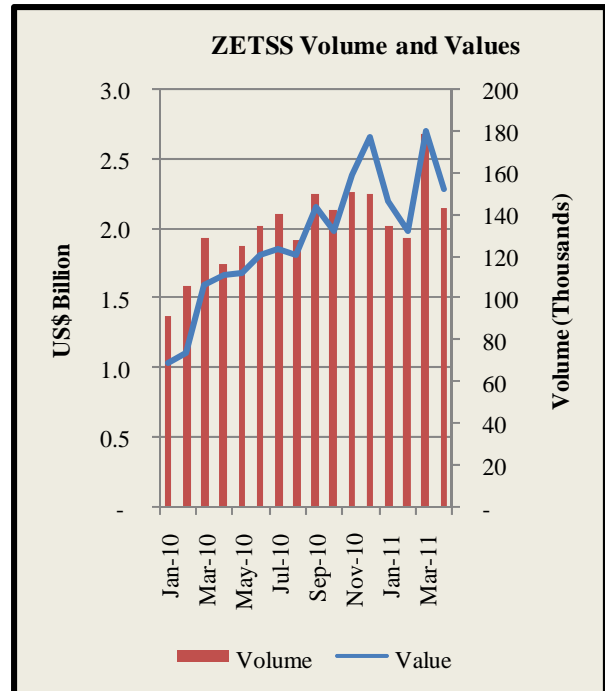

The total value of card based transactions increased by 3%, from US\$72.1 million in March 2011 to US\$74.2 million in April 2011. Of these card payments, 85% were processed through ATMs and 15% through Point of Sale (POS) machines.

Zimbabwe Electronic Transfer Settlement System (ZETSS)

The value of transactions processed through the RTGS system, known as Zimbabwe Electronic Transfer and Settlement System (ZETSS) decreased by 16%, from US\$2.7 billion in March 2011, to US\$2.3 billion in April 2011.

Mobile and Internet Based Transactions

During the month of April 2011, total value of mobile and internet based transactions declined by 6.1%, from US\$37.7 million recorded in March 2011 to US\$35.4 million in April 2011.

Cheques

During the month under review, the total value of cheques transactions decreased by US\$1.1 million, from US\$5.6 million in March 2011 to US\$5.6 million at the end of April 2011.
