STOCK MARKET DEVELOPMENTS

Significant losses were recorded in global stock markets during the month of August 2015. The losses were largely due to the global market instability that arose from investors’ perceived impending interest rate increase by the United States Federal Reserve Bank. The devaluation of the Chinese currency also contributed to the market turmoil, as investors perceived this move as a sign that the Chinese economy was not growing as had been previously anticipated.

Developments in the global stock markets also weighed down the main African stock markets, over the same period. Losses were recorded in Egypt (11.5%), Kenya (3.8), South Africa (3.6%), and Nigeria (1.6%).

Industrial and mining indices also declined on the Zimbabwe Stock Exchange (ZSE), during the period under review. The industrial index fell by 6.8%, from 145.35 points in July to 135.43 points in August 2015, while the mining index declined by 10.2% to 35.34 points.

Source: Zimbabwe Stock Exchange, 2015

Trading volumes and values declined, despite the launch of the ZSE’s Automated Trading System at the beginning of July 2015. Volumes traded were 51.5% lower at 76.2 million shares in August, compared to 157.2 million shares in July 2015.

Source: Zimbabwe Stock Exchange, 2015

The developments described above resulted in a 6.8% decline in the ZSE market capitalisation from US\$3.8 billion in July to US\$3.6 billion in August 2015. On a year-on-year basis, investor value declined by US\$1.6 billion.

MONETARY DEVELOPMENTS

The annual broad money¹ supply growth rate decelerated from 5.9% in July 2015, to 3.5% in August 2015. Monthly broad money supply growth also declined from US\$4 474 million in July to US\$4 473 million in August 2015.

Source: Reserve Bank of Zimbabwe, 2015

¹ Broad money is made up of the consolidated deposits of the entire banking sector which amounted to US\$4.47 billion in July 2015. The process of consolidation entails netting off of all interbank transactions, including intra-sectoral deposits. Broad money computation, also nets out government and non-resident deposits.

Annual growth in broad money was driven by increases across all deposit classes, with the exception of short term deposits. Long term deposits registered the largest annual growth of 17.6%, while savings and demand deposits, recorded increases of 3.3% and 5.4%, respectively. Short term deposits, however, declined by 16.9%.

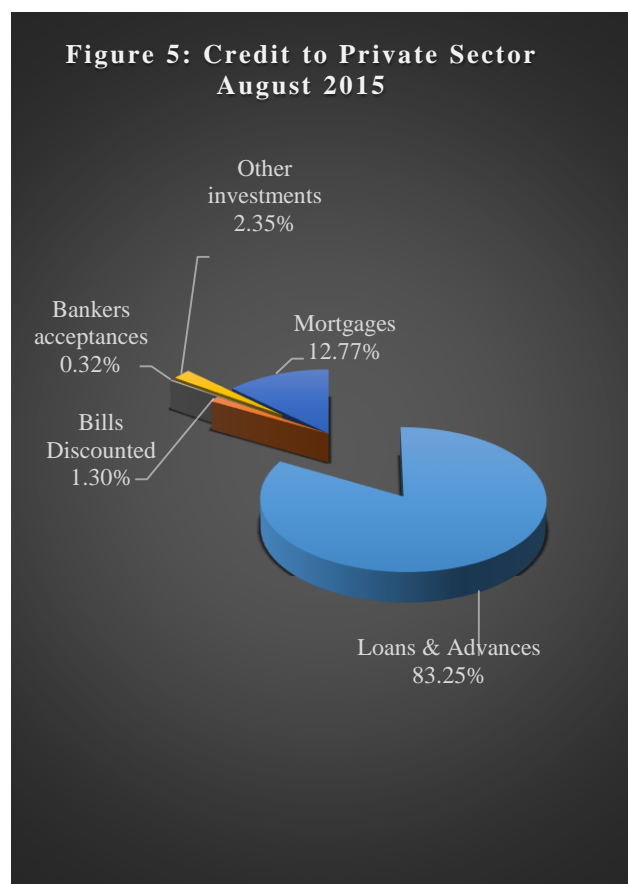

Source: Reserve Bank of Zimbabwe, 2015

Annual growth in total banking sector credit to the domestic economy rose to 18.8% in August 2015, from 18.5% in July 2015. On a monthly basis, banking sector credit rose by 1% to US\$5 029.1 million in August 2015, from US\$4 981.5 million in July 2015.

On an annual basis, growth in credit to the private sector which makes up the largest proportion of banking sector credit slowed down to 1.4% in August

2015, from 1.9% in July 2015. On a month-on-month basis, credit to the private sector also decelerated from US\$3 772.8 million in July, to US\$3 780.6 million in August 2015.

In terms of composition, loans and advances constituted 83.3% of the total credit to the private sector, mortgages advanced by building societies, 12.8%; other investments, 2.4%; bankers' acceptances, 0.3%; and bills discounted, 1.3%, in August 2015.

Source: Reserve Bank of Zimbabwe, 2015

On a sectoral basis, credit was distributed as follows: agriculture (20%); distribution (15.9%); services including tourism (15.2%); manufacturing (14.2%); mining (6.1%); transport and communications (3.4%); and construction (1%). Credit to households remained high at 19.7% of total credit to the private sector in August 2015.

Credit to the private sector was mainly channelled towards asset purchases, 43.7%; inventory build-up,

33.3%; consumer durables, 13.5%; and vehicle purchases, 3.3%. The proportion of borrowed funds utilised for capital development remained low at 4.8% of total loans and advances. In terms of allocation, the procurement of plant and equipment, land development and office equipment accounted for 3.3%, 1% and 0.5%, respectively, of total loans and advances.

INFLATION OUTTURN

Annual Inflation

Year-on-year inflation for August 2015 remained unchanged from the July 2015 rate of -2.77%, driven by price decreases in both food and non-food categories. Annual inflation has remained in the negative since October 2015, due to the continued downward correction in both food and non-food prices.

Source: ZIMSTAT, 2015

The year-on-year food inflation stood at -3.59% in August 2015, up from the -3.65% in July 2015. All food inflation sub-categories fell in August 2015,

with the largest declines recorded for bread and cereals, meat, and vegetables.

Annual non-food inflation remained unchanged at -2.4%, recorded in July 2015. Declines in housing, water, electricity, gas and other fuels; communication; furniture, household equipment and maintenance; transport and education continued to drive year-on-year non-food inflation. The declines were, however, partially offset by marginal increases in alcoholic beverages and tobacco.

Monthly Inflation

The month-on-month inflation rate for August 2015 was -0.31%, shedding 0.36 percentage points from the July 2015 rate of 0.06%. The decline was largely on account of a decline in monthly non-food inflation.

Monthly non-food inflation decelerated from 0.47% in July 2015 to -0.10% in August 2015, weighed down by declines in alcoholic beverages and tobacco; furniture, household equipment and maintenance; recreation and culture and transport.

Month-on-month food inflation rose from -0.81% in July 2015 to -0.75% in August 2015, largely driven by the bread and cereals; meat; vegetables and milk, cheese and eggs sub-categories, among others.

NATIONAL PAYMENTS SYSTEM

Zimbabwe Electronic Transfer Settlement System (ZETSS)

The value of transactions processed through the RTGS system fell by 18% to US\$3.3 billion in August 2015. Similarly, the volume of transactions also registered a decrease of 23.1% from 199 101 to 153 133 during the same period.

Source: Reserve Bank of Zimbabwe, 2015

Card Based Transactions

Card based transactions increased from US\$487 million in July 2015, to US\$506.6 million in August 2015.

Mobile and Internet Based Transactions

The total value of mobile and internet based transactions rose to US\$524.80 in August, from US\$519.7 million in July 2015.

Cheque Transactions

The value of cheque transactions declined from US\$12.6 million in July 2015, to US\$11.4 million in August 2015.
