PURPORTED SALE OF DEMONETISED ZIMBABWE DOLLAR NOTES

It has come to the attention of the Reserve Bank of Zimbabwe (the "Bank") that there are certain persons who are purportedly buying or selling, or trading in, demonetised Zimbabwe Dollar Notes in and outside the country. There are also reports and videos circulating on social media concerning such sale or trade.

The Bank completely dissociates itself from such purported sale and trade of the demonetised Zimbabwe Dollar notes. The Bank is not aware of the source of the notes being sold and cannot vouch for the genuineness or otherwise of the said notes. The Bank also advises the public that any demonetised Zimbabwe dollar notes that the Bank may have in stock are not for sale.

The Bank will therefore not be responsible for any consequences arising from the buying or selling of, or trading in, demonetised Zimbabwe Dollar notes.
